DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the structure set forth in claims 5 and 15 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

Art Unit: 3727

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 3, 4, 6, 7, 9-12, 16, 17 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Fakhrai 6,425,137.

Fakhrai teaches a wrist band comprising a carrier body 12, end portions 14, 16, and a strap 18 forming pockets. See also column 2 lines 19-65.

4. Claims 1, 2, 14, 17 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Kravchenko D 258,246.

Kravchenko teaches a design of an ankle bag comprising all of the structural features as claimed by applicant. See in particular figures 1-3 and 8.

5. Claims 1, 5, 8 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Rauch 4,069,954.

Rauch teaches a wrist band comprising a carrier body 10, end portions 12, 16, means for fastening 13, 15, and straps 18, 28 forming pockets.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3727

7. Claims 13 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fakhrai 6,425,137.

Fakhrai teaches the claimed invention except for the specific materials used to form the carrier as claimed by applicant. Fakhrai however teaches that the carrier may be made from any materials suitable for holding items and list properties that are associated with the materials claimed by applicant. The materials specified and claimed by applicant are also old and well known in the art for forming article carriers and would have been an obvious choice by one of ordinary skill in the art for forming the carrier of Fakhrai.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
